Bankhaus Lampe Deutschland Konferenz

Dr. Immo Querner, CFO
Baden-Baden, 28 March 2017

Founded as a lead insurer by German corporates

Group structure

¹ Including employee shares and stake of Meiji Yasuda (below 5%)

History

1903	Foundation as 'Haftpflichtverband der deutschen Eisen- und Stahlindustrie' in Frankfurt
1919	Relocation to Hannover
1953	Companies of all industry sectors are able to contract insurance with HDI V.a.G.
1966	Foundation of Hannover Rückversicherungs-AG
1991	Diversification into life insurance
1994	IPO of Hannover Rückversicherungs-AG
1998	Renaming of HDI Beteiligungs AG to Talanx AG
2001	Start transfer of business from HDI V.a.G. to individual Talanx subsidiaries
2006	Acquisition of Gerling insurance group by Talanx AG
2012	IPO of Talanx AG
2014	Listing at Warsaw Stock Exchange

Strong roots: originally founded by German corporate clients; HDI V.a.G still key shareholder

Four divisions with a strong portfolio of brands

▶ Integrated international insurance group following a multi-brand approach

International footprint and focussed growth strategy

International presence

- Total GWP: €31.1bn (2016)
- 2016 GWP: 50% in Primary Insurance (2015: 49%), 50% in Reinsurance (2015: 51%)
- Group wide presence in >150 countries
- 20,039 employees (FTE) in 2016

International strategy by divisions

Industrial Lines

- Local presence by own risk carriers, branches and partners create efficient network in >130 countries
- Key target growth regions: Latin America, Southeast Asia/India, Arabian Peninsula

Retail International

- Target regions: CEE (incl. Turkey) and Latin America
- # 2 motor insurer in Poland²
- # 5 motor insurer in Brazil²
- # 3 motor insurer in Chile²
- # 7 motor insurer in Mexico²

Reinsurance

- Global presence focussing on Western Europe, North- and South America as well as Asia
- ~5.000 customers in >150 countries

¹ By branches, agencies, risk carriers, representative offices

Third-largest German insurance group with leading position in Europe

Regional and segmental split of GWP and EBIT

GWP by regions 2016 (consolidated Group level)

GWP by segments 2016¹

GWP by regions 2016 (Primary Insurance)

EBIT by segments 2016^{1,2}

¹ Adjusted for the 50.2% stake in Hannover Re

² Calculation excludes Retail Germany P/C, which reported a negative EBIT of €2m

Well diversified sources of premium and EBIT generation

B2B competence as a key differentiator

Strategic focus on B2B and B2B2C

Industrial Lines

- Core focus on corporate clients with relationships often for decades
- Blue-chip client base in Europe
- Capability and capacity to lead international programs

Retail Germany

- Market leader in Bancassurance
- Market leader in employee affinity business

Retail International

- ~35% of segment GWP generated by Bancassurance
- Distribution focus on banks, brokers and independent agents

Reinsurance

- Typically non-German business generated via brokers

Unique strategy with clear focus on B2B business models

Excellence in distribution channels¹

Bancassurance

Automotive

Brokers

Employee affinity business

¹ Samples of clients/partners

Superior service of corporate relationships lies at heart of our value proposition

Key Pillars of our risk management

Risk components of Talanx Group¹

Comments

- Total market risk stands at 45% of solvency capital requirements, which is comfortably below the 50% limit
- Self-set limit of 50% reflects the dedication to primarily focus on insurance risk
- Non-Life is the dominating insurance risk category, comprising premium and reserve risk and NatCat
- Equities ~2% of investments under own management
- Over 75% of fixed-income portfolio invested in “A” or higher-rated bonds – broadly stable over recent quarters

¹ Figures show risk categorisation, in terms of solvency capital requirements, of the Talanx Group in the economic view (based on Basic Own Funds) as of 9M 2016

Market risk sensitivity (limited to less than 50% of solvency capital requirement) is deliberately low

2

Diversification of business model leads to earnings resilience

Talanx Group net income

talanx.

¹ Net income of Talanx after minorities, after tax based on restated figures as shown in annual reports (2005–2015 according to IFRS)

² Adjusted on the basis of IAS 8

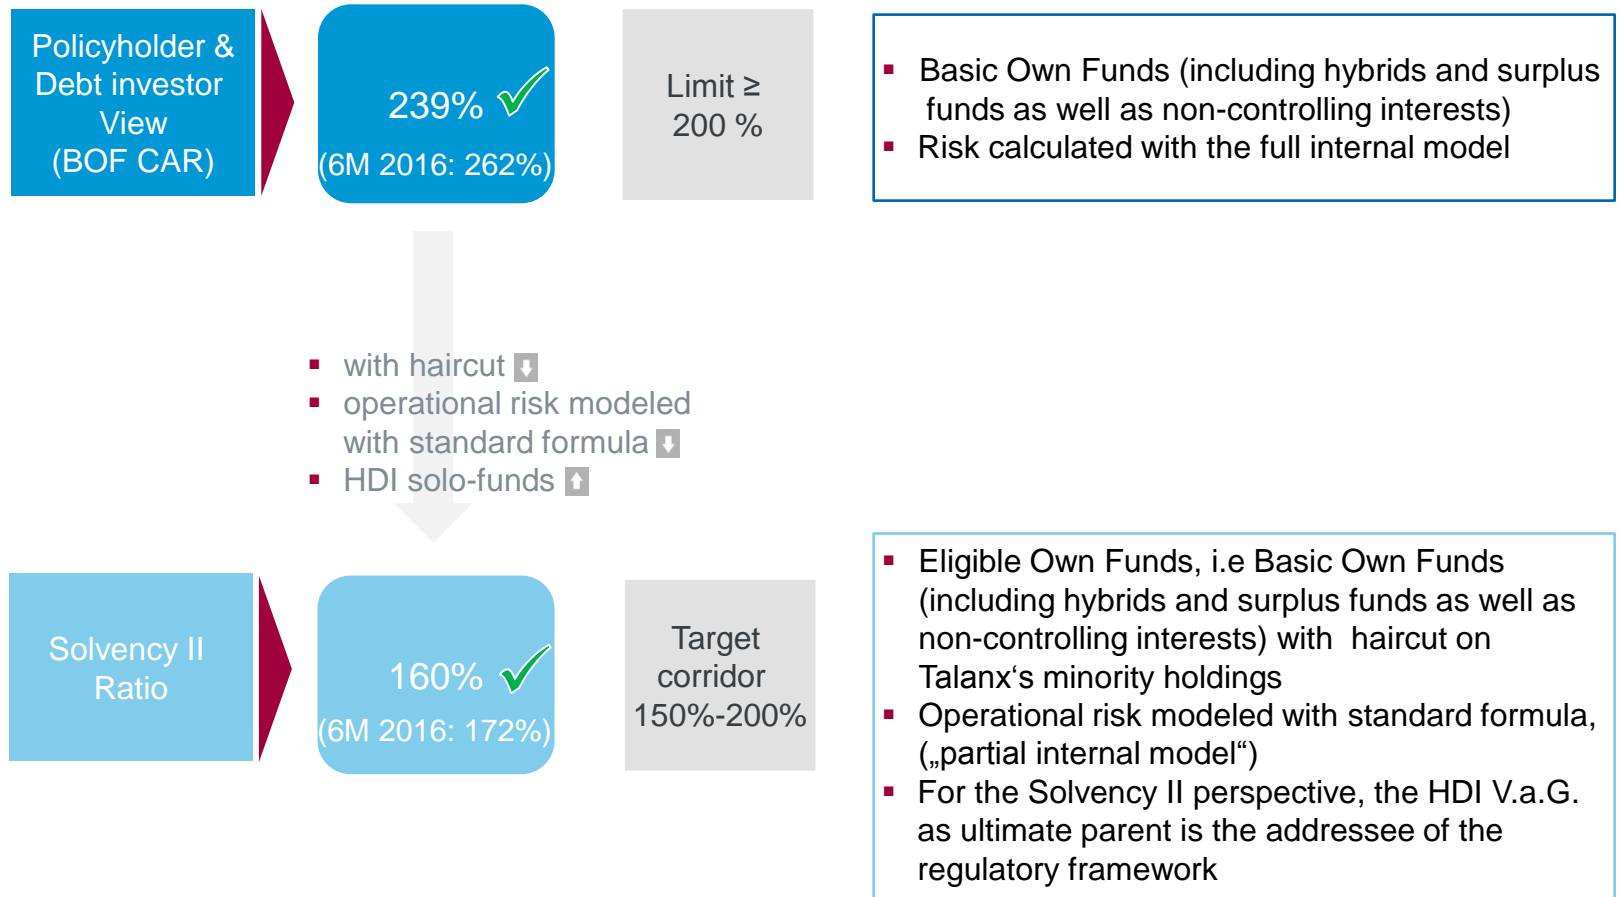

³ Top 20 European peers, each year measured by GWP; on group level; IFRS standards

⁴ Expected, in terms of loss volume

Retail Germany - Key Messages from Capital Markets Day 2016

Retail Germany stands for 21% of Talanx's GWP and 47% of its assets under own management. It adds Life exposure to the Talanx Group which is overall strongly geared to P/C business

Retail Germany has a strong and highly committed management team with an excellent professional track-record in handling challenges and in turning businesses around

Management initiatives and the central strategic programme KuRS focus on optimising the position in Bancassurance and on turning HDI around. Based on a customer-centric, sustainable and stable business model, we target for a material improvement of the risk-return profile for shareholders

KuRS combines three substantial strategic pillars: a new Life strategy, a new P/C strategy and investments in Digitalisation/IT in combination with ongoing cost management

KuRS is the by far largest initiative with ~€330m of investments and a targeted cost cutting of ~€240m. Targeted strategic investments comprise overall ~€420m. This includes ~€90m for Voyager4life targeting at a joint IT Life platform

All interim goals have been met. In 2017, the KuRS programme savings are likely to first-time exceed costs on EBIT level

Retail Germany targets for a sustainable EBIT contribution of at least €240m from 2021 onwards

Retail Germany – KuRS programme: Investment and cost reduction targets

Estimated project costs and savings

in €m

~€240m
Cost reduction¹

~€330m
Investment

Comments

- Targeted strategic investments for KuRS are expected to be ~€330m
- The related cost saving target is ~€240m p.a.
- Both numbers refer to Life and P/C business in sum
- Target is to implement all initiatives in full by the end of 2020 with the full cost benefit to be reached in 2021

¹ Cost reduction before Inflation

Strategic investment of ~€330m targeted at restructuring HDI (catching up with market) and optimising BA (strengthening excellent market positions)

Retail Germany – KuRS programme: Investment and cost reduction targets P/C

Estimated project costs and savings in P/C

in €m

¹ Cost reduction before Inflation

▶ From 2017 onwards, the EBIT contribution of KuRS is expected to be positive

Comments

- Cumulative costs for KuRS in P/C are expected to account for ~€230m
- More than half of all project costs are expected to have been booked until end-2016
- The expected costs for personnel redundancies have been covered until mid-2016
- In 2017, the KuRS programme savings are likely to exceed costs on EBIT level for the first time
- From 2017 onwards, the improvement in EBIT is expected to visibly progress year by year

Retail Germany – Asset Management Strategy: Comparison of average running yields versus average guarantee rates

HDI Life

● avg. running yields
 ● avg. guarantee rates (incl. ZZR)
 ● reinvestment yield (fixed income)

All numbers refer to German GAAP (HGB)

Bancassurance

Comments

- The implicit market expectation for 20-year AAA euro government bonds plus 40 bps is taken as the assumed reinvestment yield for 2016 - 2021 in the two diagrams - e.g. 1.22% for 2016
- The fixed-income reinvestment yield in 9M 2016 was higher at 1.32% for Bancassurance and at 1.54% for HDI Life

▶ Based on these assumptions, the average running yields will be sufficient to finance the guarantees for policyholders

Retail Germany – Targets from Capital Markets Day 2016

Targets Retail Germany

Gross premium growth (p.a.)	≥ 0%
Life	~ 0%
P/C	≥ 3%
Cost cutting initiatives to be implemented by end of 2020	~ €240m
Combined ratio 2021 ¹	≤ 95%
Life new business: share of traditional life products by 2021 (new business premium)	≤ 25%
P/C: Growth in Property & Liability to SMEs and self-employed professionals by 2021 ²	≥ 25%
EBIT contribution (targeted sustainably from 2021)	≥ €240m

¹ Talanx definition: incl. net interest income on funds withheld and contract deposits

² Compared to base year 2014

Talanx targets for a combined ratio of ~96% until 2019 in Primary Insurance

Targets are subject to no large losses exceeding budget (cat), no turbulences on capital markets (capital), and no material currency fluctuations (currency)

Retail International – Core Markets: FY2016 overview

Brazil

GWP growth (local currency)	-4.8%

¹ Magallanes integrated in February 2015

 **Strategic initiatives as key drivers of combined ratio improvement – supported by transfer of best practices**

Outlook for Talanx Group 2017¹

Gross written premium	>1 %
Return on investment	≥3.0%
Group net income	~€800m
Return on equity	>8.0%
Dividend payout ratio	35-45% target range

¹ The targets are based on a large loss budget of €290m (2016: €300m) in Primary Insurance, of which €260m (2016: €270m) in Industrial Lines. The large loss budget in Reinsurance stands at an unchanged €825m

 **Targets are subject to no large losses exceeding budget (cat), no turbulences on capital markets (capital), and no material currency fluctuations (currency)**

Management ambition – Earnings balance Primary Insurance vs. Reinsurance

EBIT 2016¹

EBIT ambition by 2021¹

¹ Adjusted for the 50.2% stake in Hannover Re

▶ Profitability improvement in Primary Insurance to lead to a balanced EBIT split

Management ambition – Reducing the valuation discount on Primary Insurance

Implicit valuation Primary Insurance in €bn

Key measures

- 1** Industrial Lines:
 - optimisation of domestic portfolios
 - pushing profitable foreign growth
 - process excellence
- 2** Retail International:
 - continuing focused profitable growth
- 3** Retail Germany:
 - consequent de-risking of our Life business
 - forceful profitabilisation of our P/C business
 - specific focus on investments in Digitalisation/IT
- 4** Corporate Operations / Holding:
 - further cost reductions
 - strict capital discipline

¹ In this analysis, Primary insurance also contains Corporate Operations and Consolidation. Share prices as of 14 March 2017
Calculated as of 14 March 2017

▶ A comprehensive set of measures to raise the profitability in Primary Insurance

Summary - Investment highlights

Global insurance group with leading market positions and strong German roots

Leading and successful B2B insurer

Value creation through group-wide synergies

New profitability measures implemented in Industrial Lines and Retail Germany

Dedication to focus on insurance rather than market risks

Commitment to continuously fulfill a „AA“ capital requirement by Standard & Poor's

Dedication to pay out 35-45% of IFRS earnings to shareholders

¹ Organic growth only; currency-neutral

² Risk-free rate is defined as the 5-year rolling average of the 10-year German government bond yield

³ Talanx definition: incl. net interest income on funds withheld and contract deposits

⁴ EBIT/net premium earned, ⁵ Reflects Hannover Re target of at least €220m

⁶ Average throughout the cycle; currency-neutral,

⁷ Targets reflect Hannover Re's targets for 2015-2017 strategy cycle

⁸ Growth rates calculated as 2014 - 2016 CAGR; otherwise arithmetic mean

Note: growth targets are based on 2014 results. Growth rates, combined ratios and EBIT margins are average annual targets

- FY2016 -

FY2016 results further improved

FY2016 Group net income markedly up to €907m (FY2015: €734m), even when adjusting for last year's goodwill impairment of €155m. Primary Insurance share of Group EBIT already at ~42% (2015: ~33%), well on track to reach target of "roughly 50%" by 2021¹

The Group's combined ratio improved by 0.3%pts to 95.7% (FY2015: 96.0%). Both Primary Insurance as well as Reinsurance remained within their respective large loss budgets

Talanx pursues its policy of continuously increasing dividends. For FY2016, the dividend proposal to the AGM stands at €1.35, up from €1.30 for FY2015

End of FY2016, shareholders' equity stood at €9,078, or €35.91 per share. This is significantly above the FY2015 level (8,282m or €32.76 per share). RoE reached a remarkable 10.4% (FY2015: 9.0%)

In February, Talanx already raised its 2017 Outlook for the Group net income to "around €800m" (from "at least €750m")

¹ Adjusted for the 50.2% stake in Hannover Re

Total shareholders' equity	14,688	13,431	+9%
Shareholders' equity	9,078	8,282	+10%

Comments

- GWP down by 2.2% y/y, mainly due to currency effects. On a currency-adjusted basis GWP were nearly stable (-0.3% y/y)
- Combined ratio improved by 0.3%pts y/y to 95.7%, mainly due to lower large losses in Industrial Lines (FY2016 combined ratio: 96.8% vs. 99.2% in FY 2015) and improved loss ratio from P/C Reinsurance. Combined ratio in Retail Germany P/C (103.3% vs. 99.3%) was affected by costs for KuRS programme (impact: 3.4%pts; FY2015: 0.9%pts). Retail International's combined ratio (96.5% vs. 96.3%) broadly flat
- FY2016 EBIT significantly up, helped by base effect from Q2 2015 goodwill writedown (€155m) and C-Quadrat disposal gain (~€27m; Q1 2016), while burdened by e.g. higher costs for KuRS programme (~€24m vs. FY2015), lower - yet positive - currency results (~€93m) and the Polish asset tax (~22m)
- FY2016 ZZR allocation of €713m significantly above previous year's level (€493m)
- Net income benefitted from positive tax effects of ~€70m in sum in the operating segments, roughly balanced by a writedown in deferred tax assets (~€80m)
- Shareholders' equity increased to €9,078m, or €35.91 per share (FY2015: €32.76; Q3 2016: €35.61). NAV up to €31.80 per share (FY 2015: €28.66, Q3 2016: €31.49)

 **Significantly higher net income benefitting from improved loss ratio and the positive base effect from FY2015 goodwill writedown**

I Large losses¹ in FY2016

Total other large losses		195.9	210.1	406.0
Total large losses		256.6	626.6	883.2
pro-rata large loss budget		300.0	825.0	1,125.0
Impact on Combined Ratio (incurred)		4.0%pts	7.8%pts	6.1%pts
Total large losses FY2015		349.3	572.9	922.2
Impact on Combined Ratio (incurred) FY2015		5.6%pts	7.1%pts	6.4%pts

- FY2016 Group large loss burden of €883m, below FY2015 level of €922m and well below large loss budget of €1,125m
- FY2016 large loss burden of €257m in Primary and €627m in Reinsurance – both remain below their FY2016 large loss budgets
- Main impact resulting from Canada wild fires (€128m), earthquakes (Japan, Ecuador, Taiwan, New Zealand), storms in Central Europe and hurricane Matthew (Carribean/USA)
- Large losses in Q4 2016 above pro-rata large loss budget in Reinsurance and in Primary Insurance

¹ Definition „large loss“: in excess of €10m gross in either Primary Insurance or Reinsurance

Note: 2016 Primary Insurance large losses (net) are split as follows: Industrial Lines: €236m; Retail Germany: €21m; Retail International: €0m, Corporate Operations: €0m; from FY2016 onwards, the table includes large losses from Industrial Liability line, booked in the respective FY. The latter also explains the stated increase in the large loss budget for Primary Insurance by €10m for FY2016.

Total shareholders' equity	14,688	13,431	+9%
Shareholders' equity	9,078	8,282	+10%

Comments

- Q4 2016 GWP down by 1.2% y/y, predominantly due to currency effects (curr.-adj.: +0.0%). Decline in Life segments (Primary and Reinsurance) is (nearly) compensated by pleasing growth in all other segments
- Combined ratio on Group level slightly improved to 93.1% (Q4 2015: 93.3%). Lower combined ratios in all segments, except Retail Germany P/C, which was affected by ~€8m higher costs for KuRS and by higher frequency losses
- Net investment income significantly up as impact from low interest rate environment was overcompensated by extraordinary investment gains, mainly to finance above-average allocation to ZZR in Retail Germany Life – at the same time having a negative effect on the net underwriting result
- Q4 2016 EBIT down ~4% y/y, as lower underwriting result cannot be fully compensated by higher investment income and improved other result
- Increase in net income helped by positive tax effects in the operating segments (~€70m), largely balanced by a writedown in deferred tax assets (~80m)

Q4 2016 net income benefited from improved profitability in Industrial Lines

II Segments – Industrial Lines

P&L for Industrial Lines

€m, IFRS	FY2016	FY2015	Δ	Q4 2016	Q4 2015	Δ
Gross written premium	4,266	4,295	(1%)	876	861	+2%

Net investment income	242	206	+17%	76	48	+58%
Operating result (EBIT)	296	208	+42%	91	55	+65%
Group net income	236	127	+86%	104	24	>+100%
Return on investment (annualised)	3.2%	2.8%	+0.4%pts	3.8%	2.5%	+1.3%pts

Combined ratio¹

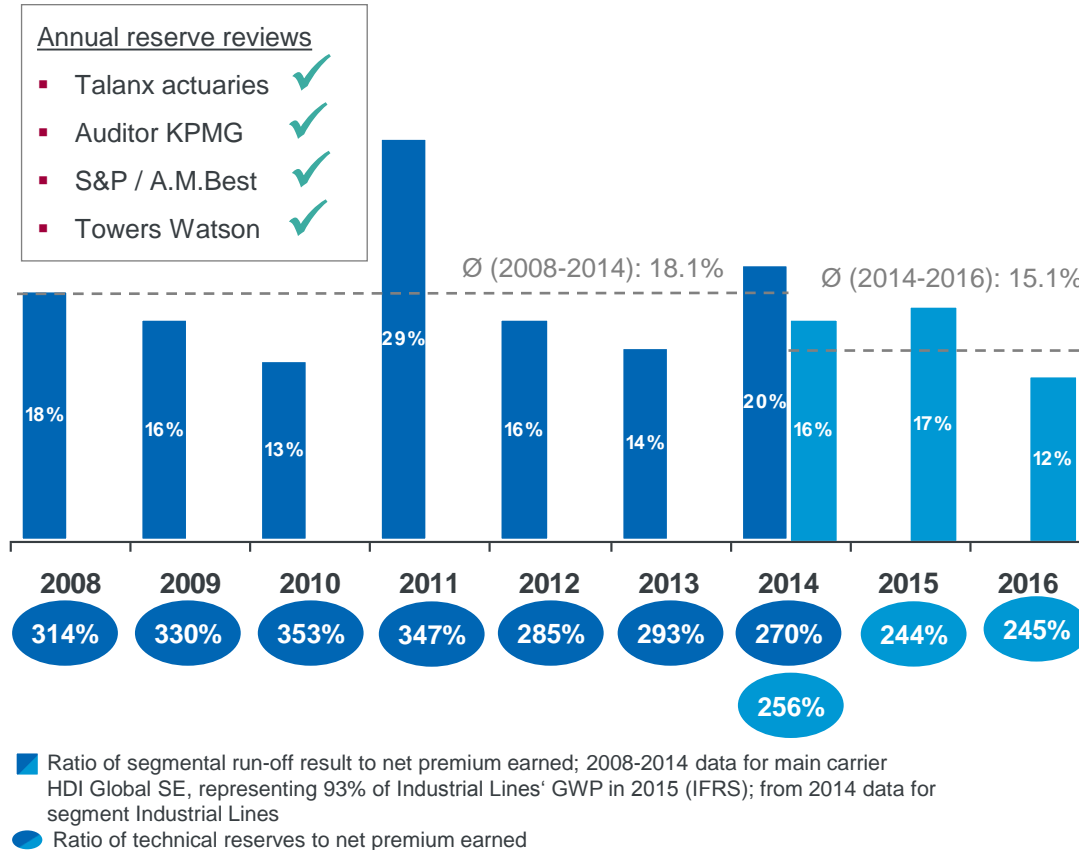

¹ Incl. net interest income on funds withheld and contract deposits

Comments

- FY2016 GWP slightly down by 0.7% y/y, dampened by currency effects (curr.-adj.: -0.1%), effects from re-underwriting (i.e. "Balanced Book") and the withdrawal from Aviation business. Positive effects from international markets, e.g. US and new business unit in Brazil. Q4 2016 GWP slightly up by 1.7% (curr.-adj.: +1.6%)
- FY2016 retention rate up to 53.4% (FY2015: 51.8%) due to significantly lower reinstatement premiums and higher retention in Liability lines, partly compensated by higher cessions in Property
- FY2016 combined ratio improved to 96.8% (FY 2015: 99.2%). Loss ratio was 1.6%pts lower y/y at 74.9%. Large losses remained well within budget, while run-off result below average. Cost ratio improved to 21.8% (FY2015: 22.7%) - partly due to an EBIT-neutral accounting change
- FY2016 net investment result is up vs. FY2015, mainly due to a positive impact from investments in alternative assets (incl. private equity) and lower writedowns
- Net income benefited from improved tax results (incl. €15m tax income from previous years)

Improved net underwriting result and positive tax effects led to significantly higher net income

Run-off results and reserve coverage (IFRS)

Comments

- In FY2016, Industrial Lines contributed a lower net positive run-off result compared to the previous year (FY2016: €263m vs. FY2015: €386m)
- FY2016 run-off result relates to ~12% of net premium earned, significantly below previous year's level
- Historically, run-off results have proven a substantial earnings stabiliser for Industrial Lines
- High ratio of technical reserves to net premium earned compares favourably with peer levels

Historically, run-off results have proven a very steady contributor to Industrial Lines results

P&L for Retail Germany

€m, IFRS	FY2016	FY2015	Δ	Q4 2016	Q4 2015	Δ

EBIT (€m)

Comments

- Having started with 6M 2016 reporting, the Life and P/C segments in the German Retail business report separately. In addition, we continue to show the aggregated numbers for the Division
- FY2016 GWP -6% down (Q4 2016: -0.9%), predominantly due to premium decline in Life - consistent with the targeted phase-out of traditional guarantee business and the intended reduction in single-premium business. GWP development in P/C is broadly stable (FY2016: -0.1% y/y) with momentum improving (Q4 2016: +7.6% y/y)
- Net investment income is up by ~9%, predominantly due to higher extraordinary gains in Retail Germany Life to finance ZZR. Moderate decline in ordinary investment result of ~3% is reflecting the low-interest rate environment
- Cost impact from KuRS affected the Division by a total of ~€112m (Q4 2016: €37m). The impact on the FY2016 EBIT was €78m (Q4 2016: €27m). Higher burden from KuRS (~€24m higher cost vs. FY 2015) and faster amortisation of PVFP (€33m) explain the bulk of the EBIT reduction, when adjusting FY2015 EBIT for goodwill writedown (€155m)
- There is a positive tax effect (~€20m), which at the same time partly burdens the EBIT (impact: ~€14m) because of policyholder participation. Division slightly above EBIT guidance of ~€85m

FY2016 EBIT significantly improved despite KuRS burden and impact from PVFP amortisation

II Segments – Retail Germany P/C

P&L for Retail Germany P/C

€m, IFRS	FY2016	FY2015	Δ	Q4 2016	Q4 2015	Δ

Return on investment (annualised)	2.3%	2.9%	(0.6%)pts	2.0%	3.6%	(1.6%)pts

Combined ratio¹

¹ Incl. net interest income on funds withheld and contract deposits

Higher investments in KuRS, lower investment income and a more conservative reserving policy explain planned EBIT decline

Comments

- FY2016 GWP broadly stable y/y (Q4 2016 up by 7.6% y/y). Gross premiums negatively impacted by profitabilisation measures in Motor. Positive effects from growth in SMEs and self-employed professionals, in unemployment insurance and from the start of the digital distribution (“direct business”) in Motor - all gaining momentum in Q4 2016
- FY2016 combined ratio was impacted by €47m costs for KuRS programme (Q4 impact was ~€17m, 4.7%pts impact) and a more conservative reserving policy. Adjusting for KuRS, the 2016 combined ratio reached 99.9% (FY2015: 98.4%). In Q4 2016, the KuRS adjusted combined ratio was 98.6% (vs. 91.9%)
- Net investment income down, reflecting low interest rate levels and a significantly lower extraordinary investment result, predominantly in Q4 2016. As a consequence, FY2016 RoI was down to 2.3% (FY2015: 2.9%)
- Overall, FY2016 EBIT was burdened by €78m (FY2015: €54m) costs for KuRS, of which ~€32m (2015: €41m) in “other result”, i.e. mainly personnel redundancy cost

II Segments – Retail Germany Life

P&L for Retail Germany Life

€m, IFRS	FY2016	FY2015	Δ	Q4 2016	Q4 2015	Δ

Return on investment (annualised)	4.1%	3.8%	+0.3%pts	4.1%	3.2%	+0.9%pts

EBIT (€m)

Comments

- Lower GWP (2016: -7.3% y/y; Q4 2016: -2.3%), mainly due to the targeted phase-out of traditional/single-premium business, a negative base effect from the spill-over of the strong 2014 year-end business into 2015 – just partly compensated by significant growth in credit life insurance business in all Bancassurance risk carriers
- €34m cost impact from KuRS (incl. €20m restructuring costs in “other result”) – completely compensated in the EBIT due to policyholder participation
- Investment result is up, mainly due to higher extraordinary gains to finance ZZR and lower writedowns, while ordinary investment result is impacted by low interest rate environment
- FY2016 ZZR allocation of €713m (FY2015: €493m; Q4 2016: €211m). Total ZZR stock reached €2.27bn in FY2016
- FY2016 EBIT impacted by an accelerated and more conservative amortisation of PVFP (~€33m, of which ~€22m already booked in Q3 2016), which has been completely written off for the traditional life business

FY2016 EBIT burdened by the complete write-off of PVFP for traditional life business – roughly in line with FY2015 when adjusting for the goodwill impairment in Q2 2015

Retail Germany Life - portfolio overview

New business premium by product

Note: Dynamics in existing contracts impact new business premium split in favour of traditional life products

Split of in-force-business by business line (GWP)

Business in force 2016

Combined ratio¹

¹ Incl. net interest income on funds withheld and contract deposits

Comments

- FY2016 GWP up by 6.0% y/y despite currency headwinds in Latin America (curr.-adj.:+10.2%). Top-line growth helped by significant increase in single-premium Life business in Italy and the consolidation of CBA/Italy end of June 2016 (GWP impact: ~€210m). In Q4 2016 GWP grew by 5.8%, while currency effects turned into tailwind (curr.-adj.:+5.2%)
- On a currency-adjusted basis, FY2016 GWP in P/C grew by 4.9% y/y, backed by Warta/Poland and underlying double-digit growth in Chile, Mexico and Turkey
- FY2016 combined ratio slightly up by 0.2%pts y/y to 96.5%. Cost ratio improved by 0.3%pts y/y in 2016 despite ongoing business diversification. Loss ratio 0.5%pts up as currency depreciation has led to higher prices for spare parts and triggers increase in theft rates, namely in Brazil and in Mexico. This is just partially compensated by improved combined ratios in most European markets and Chile. In Q4 2016, combined ratio for the segment improved by 1.1%pts y/y to 95.2%
- Moderate FY2016 EBIT decline despite negative currency translation effect (~€10m) and the additional asset tax charge in Poland (~€22m), only partially offset by a positive one-off in Brazil (~€8m)
- Turkey added ~€5.8m to FY2016 EBIT (2015: €4.8m). Contribution from Chile² was €310m GWP (€254m) and ~€24m EBIT (€10m)

² Consolidated from 13 Feb 2015; "as-if" numbers for HDI Seguros S.A after merger (1 April 2016) with Magallanes Generales

Decline in FY2016 profit is fully explained by currency headwind and impact from asset tax in Poland

P&L for Reinsurance

€m, IFRS	FY2016	FY2015	Change	Q4 2016	Q4 2015	Change

Group net income	595	606	(2%)	192	202	(5%)
Return on investment	3.1%	3.4%	(0.3%)pts	3.2%	3.6%	(0.4%)pts

EBIT (€m)

¹ EBIT margin reflects a Talanx Group view;

Note: Differences between figures from Reinsurance Division and Hannover Re reporting may occur due to different recognition of common private equity investments. At Talanx, they are fully consolidated due to Hannover Re's majority stakes.

Favourable earnings contribution from both underwriting and investments

Comments

- The Division Reinsurance combines the two segments P/C Reinsurance and Life/Health Reinsurance. Aligned to our reporting on the Retail Germany Division, we now additionally show the aggregated numbers for the Reinsurance Division
- FY2016 GWP down by -4.2% y/y; adjusted for currency effects: -2.1% y/y. Net premium rather stable on a reported basis; Increase by 1.0% on a currency-adjusted basis
- Satisfactory EBIT margin¹ of 11.8 (FY2015: 12.3%)
- Decrease in outstanding hybrid capital leads to lower leverage and savings in interest
- Tax ratio within normal range

Net investment income

Net investment income Talanx Group

€m, IFRS	FY2016	FY2015	Change	Q4 2016	Q4 2015	Change
Ordinary investment income	3,302	3,444	(4%)	861	913	(6%)
thereof current investment income from interest	2,747	2,887	(5%)	692	710	(3%)

Total	4,023	3,933	+2%	1,043	944	+11%

Comments

- Ord. investment income reflects the decline in interest income - and for 2016 - the negative base effect from the one-off payment following a withdrawal from a US-transaction (~€39m) in L/H Reinsurance in Q1 2015
- Realised investment net gains increased by ~46% y/y to €770m in FY2016, partly due to higher realised gains in Retail Germany to finance ZZR (FY2016 allocation: €713m vs. FY2015: €493m)
- Lower investments writedowns in FY2016 despite above-average writedowns from lower equity prices in Q2 2016. Q1 2015 impairment of the bond position in Heta Asset Resolution (50% on position, i.e. mid double-digit €m amount) has been largely unwound in Q4 2016
- Rol unchanged compared to previous year at 3.6% and well above the FY2016 outlook of “at least 3.0%”
- ModCo derivatives: €0m (Fy2015: €-26m); in Q4 2016: €1m (Q4 2015: €-7m); no impact from inflation swaps (€0m) as these have been terminated in FY2015 (FY2016: €-14m; Q4 2015: €0m)

FY2016 Rol at 3.6% - at the same level compared to previous year and well above the FY2016 Outlook of “at least 3.0%”

Equity and capitalisation – Our equity base

Capital breakdown (€bn)

Comments

- Compared to FY2015, shareholders' equity increased by €796m to €9,078 m. The FY2015 dividend payout in May 2016 (€329m) was more than compensated by the net income (€907m) and the positive change in OCI (€233m) – the latter predominantly due to lower interest rates compared to year-end 2015
- Book value per share stood at €35.91 compared to €32.76 in FY2015, while NAV per share was €31.80 (FY2015: €28.66)
- Neither book value per share nor NAV contain off-balance sheet reserves. These amounted to €332m (see next page), or €1.31 per share (shareholder share only). This would add up to an adjusted book value of €37.22 per share and an adjusted NAV (excluding goodwill) of €33.11

Shareholders' equity up by ~€800m compared to end of FY2015

Equity and capitalisation – Unrealised gains

Unrealised gains and losses (off and on balance sheet) as of 31 December 2016 (€m)

Δ market value vs. book value

Note: Shareholder contribution estimated based on FY2015 profit sharing pattern

Off-balance sheet reserves of ~€4.9bn – €332m (€1.31 per share) attributable to shareholders (net of policyholders, taxes & minorities)

Equity and capitalisation – Contribution to change in equity

Comments

- At the end of FY2016, shareholders' equity stood at €9,078m, or €35.91 per share
- This was above the level at the end of FY2015 (€8,282m or €32.76 per share) predominantly driven by the FY2016 Group net income and a positive OCI movement - well above the dividend payout in May 2016
- At the end of Q3 2016, the Solvency II Ratio (Regulatory View, HDI Group level) stood at 160 (FY2015: 171; Q1 2016: 166; Q2 2016: 172) percent. FY2016 Solvency II ratio expected at least in the order of FY2015
- Based on Basic Own Funds, so taking the full internal model into account, Talanx's capitalisation was 239 (FY2015: 253; Q1 2016: 245; Q2 2016: 262) percent – all numbers before transitional

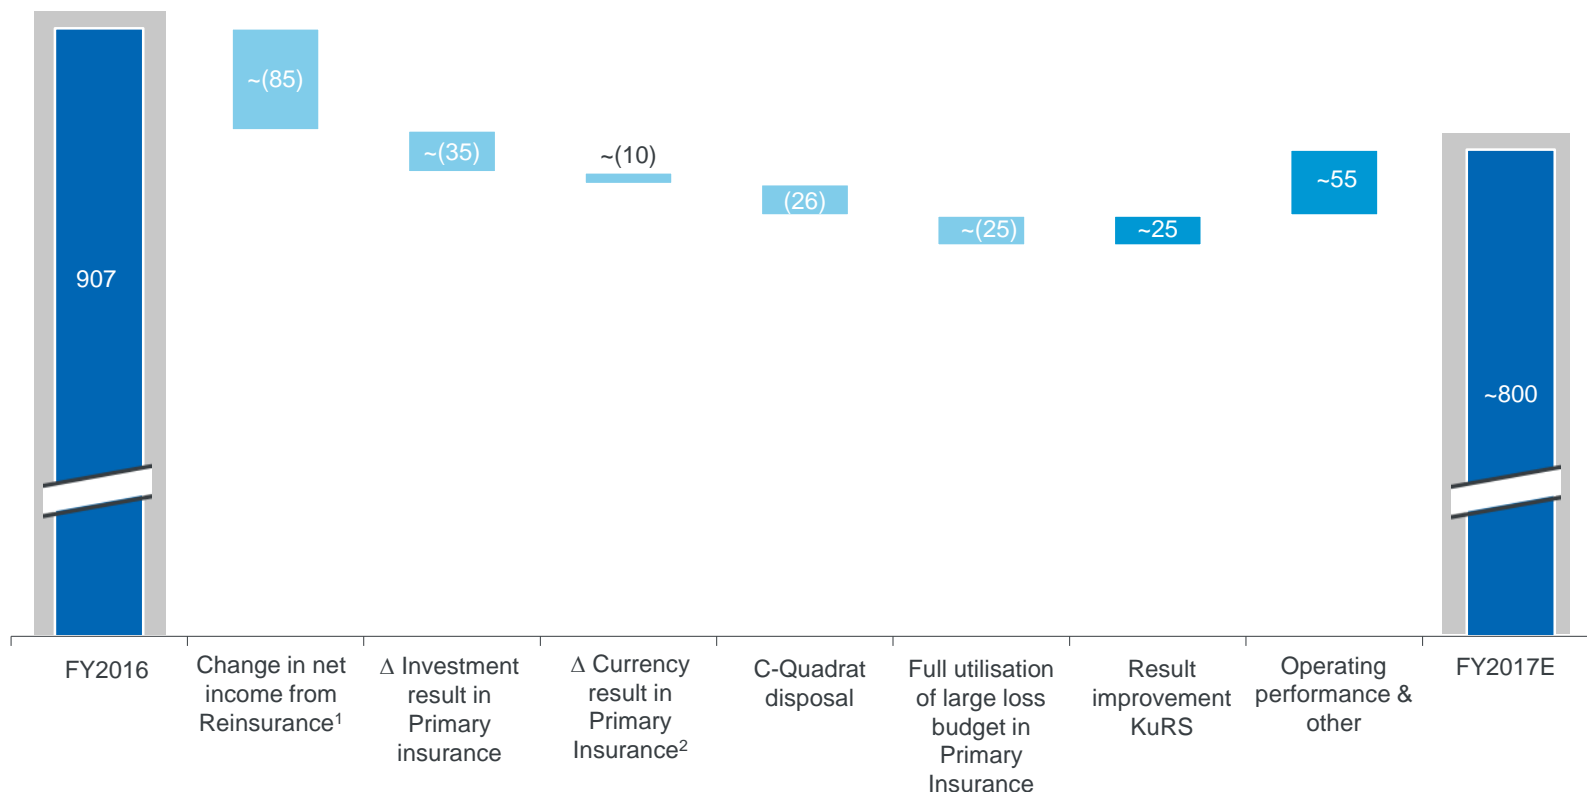

Shareholders' equity up to €9,078m, or €35.91 per share

IV

Outlook for Talanx Group FY 2017 – Expected change factors in Group net income

in €m

¹ According to Hannover Re guidance (after Talanx's minorities)

² In case of neutral currency result booked in "other result"

▶ Expected operating improvement in Primary Insurance (incl. KuRS effects) likely to be overcompensated by lower investment result and guided profit decline in Reinsurance

A

FY2016 Additional Information – GWP trend

GWP development (€bn)

Comments

- Q4 2016 GWP are slightly down by 1.2%, dampened by currency effects (curr.-adj.: +0.0%), the strategy-conform decline in Retail Germany Life and discontinued large volume business in P/C Reinsurance
- Retail Intern., Retail Germany P/C and P/C Reinsurance with underlying GWP growth
- Retail International benefits from the initial consolidation of CBA/Italy (from 30 June 2016)
- Seasonal pattern remains intact

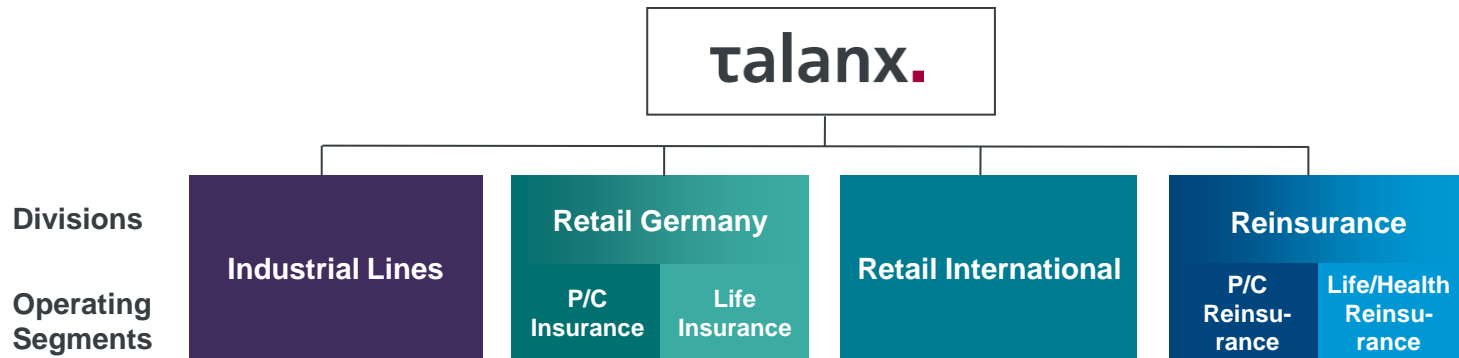

Q4 2016 GWP just slightly down y/y despite negative currency effects and the strategy-conform decline in Retail Germany Life business

A

New Segmentation in Retail Germany

- The responsibilities within the Retail Germany Division have been separated between “Life” and “Property/Casualty”. As a consequence, applying IFRS 8, both segments report separate P&Ls (incl. EBIT) since the 6M 2016 reporting¹
- In addition, Talanx continues to show the former segment “Retail Germany” as the aggregated division
- Talanx insurance activities are now subdivided into six, rather than the previous five reportable segments

- Retail International continues to act as one single segment including life and non-life activities. To further raise transparency, Talanx has started to show regional P&Ls (incl. EBIT) in the status report

¹ The (very limited) effects of the interaction between the two new segments in the “Retail Germany” division are now eliminated in the Group’s consolidation line. Under the former segmentation, interaction between “Life” and “Non-Life” business has been eliminated within “Retail Germany”.

FY2016 Additional Information – Breakdown of investment portfolio

Investment strategy unchanged – portfolio dominated by strongly rated fixed-income securities

Growth drivers for GWP in Retail Germany

GWP – Bancassurance

in €m

Comments

- GWP in Bancassurance expected to grow moderately
- Credit Life business expected to deliver sustainable growth

GWP – HDI P/C

in €m

Comments

- Profitability measures in Motor with a negative GWP impact until 2016. Motor line expected to further reduce its premium share due to above-average growth in Property and Liability business with SMEs and self-employed professionals
- Strategic target to grow GWP for SMEs and self-employed professionals $\geq 25\%$ by 2021²

¹ Includes unemployment insurance; ² Compared to base year 2014

Credit Life business and business with SMEs and self-employed professionals expected to become the main growth drivers

Combined ratio¹

¹Incl. net interest income on funds withheld and contract deposits

² EBIT margins reflect a Talanx Group view

Comments

- FY2016 GWP slightly lower by 1.4% y/y (adjusted for currency effects: -0.2%); growth mainly from structured Reinsurance and US, reduced volume from China motor business and specialty lines. Currency-adjusted, FY2016 net premium stable
- Major losses of €627m, below budget
- Conservative reserving of the most recent underwriting year leads to positive run-off; confidence level of loss reserves largely stable
- Satisfactory ordinary investment income
- Other income and expenses within normal range, decreased positive currency effects
- FY2016 EBIT margin² of 17.2% (FY2015: 17.2%) well above target

Premium development in line with selective underwriting approach

P&L for Life/Health Reinsurance

€m, IFRS	FY2016	FY2015	Change	Q4 2016	Q4 2015	Change

Operating result (EBIT)	330	411	(20%)	49	172	(72%)
Group net income	121	150	(19%)	20	66	(70%)
Return on investment	3.7%	4.1%	(0.4%)pts	3.0%	3.3%	(0.3%)pts

EBIT (€m)

¹ EBIT margin reflects a Talanx Group view

Lower EBIT mainly due to positive one-off effect in previous year

Comments

- FY2016 GWP -7.5%; adjusted for currency effects: -4.3%; decrease in premium due to discontinued large-volume treaties in Australia and China; reduced volume from UK annuities
- Net premium earned grew by 2.2% on currency-adjusted basis
- Negative impact from legacy US mortality business masks positive underlying trend
- Ordinary investment income in line with expectation (*Q1 2015 impacted by a positive one-off of €39m*)
- Improved other income mainly driven by positive currency effects and reduced LoC costs
- FY2016 EBIT margin¹ of 5.1% (FY2015: 6.3%) for the segment

A

Solvency II Update – Historic development of Solvency II Ratio

Eligible Own Funds (€bn)

Solvency Capital Required (€bn)

Solvency II Ratio

Comments

- Slight decrease of our Own Funds largely due to an interest rate decline in 9M 2016
- EIOPA's adjustment of their reference portfolio led to a decline of the volatility adjustment (VA) and consequently lowering discount rate of our liabilities (i.e. increase in SCR)
- Positive impact from lower credit spreads partly compensating this effect
- For FY2016, the Solvency II Ratio is expected to be at least in the order of year-end 2015

¹ Group Solvency II Ratios including transitional: FY2015: 224%; Q1 2016: 218%; 6M 2016: 224%; 9M 2016: 210%

Note: In the entire presentation, calculations are based on a 99.5% confidence level including dynamic volatility adjustment. Figures shown on this slide do not contain any effects of transitional measures

The Solvency II Ratio for FY2016 expected at least in the order of FY2015

Solvency II Update – Target capitalisation levels (as of 9M 2016)

Target capitalisation

Comments

- For the Solvency II perspective, Talanx defines a target corridor of 150% to 200%
- For the Policyholder & Debt investor View, a minimum target of 200% is set. It reflects the concept that is used for risk budgeting and steering at Talanx as it best reflects the economic capital position of the Group
- Talanx is rewarded for having a convincing internal model by the so-called "M-Factor" in the S&P capital model
- In the Solvency II perspective, 79% of dividend payments do not negatively impact Own Funds as HDI V.a.G. as the regulated entity is the main beneficiary of Talanx dividends

Note: In the entire presentation, calculations of Solvency II Capital Ratios are based on a 99.5% confidence level, including volatility adjustments yet without the effect of applicable transitionals.

Capitalisation ratios well within our target range / above our target limit

Disclaimer

This presentation contains forward-looking statements which are based on certain assumptions, expectations and opinions of the management of Talanx AG (the "Company") or cited from third-party sources. These statements are, therefore, subject to certain known or unknown risks and uncertainties. A variety of factors, many of which are beyond the Company's control, affect the Company's business activities, business strategy, results, performance and achievements. Should one or more of these factors or risks or uncertainties materialize, actual results, performance or achievements of the Company may vary materially from those expressed or implied as being expected, anticipated, intended, planned, believed, sought, estimated or projected in the relevant forward-looking statement.

The Company does not guarantee that the assumptions underlying such forward-looking statements are free from errors nor does the Company accept any responsibility for the actual occurrence of the forecasted developments. The Company neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

Where any information and statistics are quoted from any external source, such information or statistics should not be interpreted as having been adopted or endorsed by the Company as being accurate. Presentations of the company usually contain supplemental financial measures (e.g., return on investment, return on equity, gross/net combined ratios, solvency ratios) which the Company believes to be useful performance measures but which are not recognised as measures under International Financial Reporting Standards, as adopted by the European Union ("IFRS"). Therefore, such measures should be viewed as supplemental to, but not as substitute for, balance sheet, statement of income or cash flow statement data determined in accordance with IFRS. Since not all companies define such measures in the same way, the respective measures may not be comparable to similarly-titled measures used by other companies. This presentation is dated as of 22 March 2017. Neither the delivery of this presentation nor any further discussions of the Company with any of the recipients shall, under any circumstances, create any implication that there has been no change in the affairs of the Company since such date. This material is being delivered in conjunction with an oral presentation by the Company and should not be taken out of context.

Guideline on Alternative Performance Measures - For further information on the calculation and definition of specific Alternative Performance Measures please refer to the Annual Report 2016 Chapter "Enterprise management", pp. 23 and the following, the "Glossary and definition of key figures" on page 256 as well as our homepage http://www.talanx.com/investor-relations/ueberblick/midterm-targets/definitions_apm.aspx
