5 Continuous improvement of underwriting performance

Insurance revenue

Double-digit growth from new business and rate changes

Net income

Improved underwriting performance and EUR 86m large-loss buffer for second half of 2024³

Return on equity

Technical performance supported by improved investment income⁴

○ = Combined ratio (net / gross) Property / Casualty

1 Currency-adjusted: +14% | 2 Combined ratio (net / gross): Insurance service expenses after reinsurance divided by insurance revenue before reinsurance | 3 Incurred large losses 6M 2024: EUR 128m (translates into 2.7%pts) vs booked budget 6M 2024: EUR 214m (translates into 4.5%pts) | 4 Net insurance finance and investment result improved from 6M 2023 EUR 49m to 6M 2024 EUR 68m; RoI 6M 2024: 2.7% vs RoI 6M 2023: 1.8%

6M 2024 results: Retail International

5 Strong organic growth and profitability boosted by LatAm acquisition

Insurance revenue¹

Double-digit organic growth boosted by LatAm acquisition²

Net income

Bottom line growing stronger than top line due to technical excellence

Return on equity⁴

Improved RoE despite partial (internal) equity funding of LatAm acquisition

= Combined ratio (net / gross) Property / Casualty

¹ Full-year insurance revenue guidance adjusted from “low double digit” to “clearly double digit” growth for P/C and “mid-single digit” to “clearly double digit” growth for Life | ² Currency-adjusted: +58% (organic growth currency-adjusted: 19%)
³ Combined ratio (net / gross): Insurance service expenses after reinsurance divided by insurance revenue before reinsurance | ⁴ Full-year RoE guidance adjusted from > 8.5% to > 10%

6M 2024 results: Retail Germany

5 Mastering current headwinds

Insurance revenue

More selective underwriting

Net income

Technical profitability also impacted by flood events (EUR 25m losses)

Return on equity²

On track for full-year guidance

= Combined ratio (net / gross) Property / Casualty

¹ Combined ratio (net / gross): Insurance service expenses after reinsurance divided by insurance revenue before reinsurance | ² RoE is including Asset Management contribution; RoE without Asset Management contribution was 11.8% for 6M 2023 and 10.4% for 6M 2024

6M 2024 results: Reinsurance

5 RoE over 20%, clearly beating ambition level

Insurance revenue

Continued growth in a favourable market environment

Insurance service result (net)

Attractive underlying profitability

Return on equity

Strong performance

= Combined ratio (net / net) Property / Casualty

¹ Currency-adjusted +6% | ² Combined ratio (net / net): Insurance service expenses after reinsurance divided by insurance revenue after reinsurance

5 Details on reserve review by WTW

(as per page 33 of this presentation)

- WTW was separately engaged by Talanx AG and Hannover Rück SE to review certain parts of the undiscounted loss and loss adjustment expense reserve from the consolidated financial statements in accordance with IFRS as at each 31 December from 2019 to 2023. Life and health (re-)insurance business is excluded from the scope of this review..
- WTW's results referenced in this presentation are based on assumptions as to the future. It should be recognised that actual future claim experience is likely to deviate, perhaps materially, from WTW's estimates. This is because the ultimate liability for claims will be affected by future external events; for example, the likelihood of claimants bringing suit, the size of judicial awards, changes in standards of liability, and the attitudes of claimants towards the settlement of their claims.
- WTW's analysis does not anticipate any extraordinary changes to the legal, social, inflationary or economic environment, or to the interpretation of policy language, that might affect the cost, frequency, or future reporting of claims. In addition, WTW's estimates make no provision for potential future claims arising from causes not substantially recognised in the historical data (such as new types of mass torts or latent injuries, terrorist acts), except in so far as claims of these types are included incidentally in the reported claims and are implicitly developed.
- Sharp increases in inflation in many economies worldwide have resulted from rises in energy, food, component and raw material prices driven by wider economic effects of heightened geopolitical instability with increased possibilities of hitherto unexpected conflict escalation from the Russia-Ukraine and Israel-Gaza conflicts in combination with factors such as supply chain disruptions and labour shortages. Longer term implications for inflation remain uncertain. WTW's analysis makes no explicit allowance for extraordinary future effects that may result from the above factors or other emerging shocks on the projection results.
- In accordance with its scope, WTW's estimates are on the basis that all of Talanx AG's and Hannover Rück SE's reinsurance protection will be valid and collectable. Further liability may exist for any reinsurance that proves to be irrecoverable.
- WTW's estimates are in Euros based on the exchange rates provided by Talanx AG and Hannover Rück SE as at each 31 December evaluation date. However, a substantial proportion of the liabilities is denominated in foreign currencies. To the extent that the assets backing the reserves are not held in matching currencies, future changes in exchange rates may lead to significant exchange gains or losses.
- In its review, WTW has relied on audited and unaudited data and financial information supplied by Talanx AG, Hannover Rück SE and their respective subsidiaries, including information provided orally. WTW relied on the accuracy and completeness of this information without independent verification.
- WTW's analysis relies on data provided by Talanx as of each 31 December. The analysis may not reflect claim development or all information that became available after the valuation dates and the results, opinions and conclusions referenced herein may be rendered inaccurate by developments after the valuation dates.
- Except for any agreed responsibilities WTW may have to Talanx AG or Hannover Rück SE, WTW does not assume any responsibility and will not accept any liability to any third party for any damages suffered by such third party arising out of this commentary or references to WTW in this document.

5 Qualifications and caveats

This presentation contains forward-looking statements which are based on certain assumptions, expectations and opinions of the management of Talanx AG (the “Company”) or cited from third-party sources. These statements are, therefore, subject to certain known or unknown risks and uncertainties. A variety of factors, many of which are beyond the Company’s control, affect the Company’s business activities, business strategy, results, performance and achievements. Should one or more of these factors or risks or uncertainties materialise, actual results, performance or achievements of the Company may vary materially from those expressed or implied as being expected, anticipated, intended, planned, believed, sought, estimated or projected in the relevant forward-looking statement. The Company does not guarantee that the assumptions underlying such forward-looking statements are free from errors nor does the Company accept any responsibility for the actual occurrence of the forecasted developments. The Company neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

Where any information and statistics are quoted from any external source, such information or statistics should not be interpreted as having been adopted or endorsed by the Company as being accurate.

Presentations of the company usually contain supplemental financial measures (e.g., return on investment, return on equity, gross/net combined ratios, solvency ratios) which the Company believes to be useful performance measures but which are not recognised as measures under International Financial Reporting Standards, as adopted by the European Union (“IFRS”). Therefore, such measures should be viewed as supplemental to, but not as substitute for, balance sheet, statement of income or cash flow statement data determined in accordance with IFRS. Since not all companies define such measures in the same way, the respective measures may not be comparable to similarly-titled measures used by other companies.

This presentation is dated as of 16 October 2024. Neither the delivery of this presentation nor any further discussions of the Company with any of the recipients shall, under any circumstances, create any implication that there has been no change in the affairs of the Company since such date. This material is being delivered in conjunction with an oral presentation by the Company and should not be taken out of context.

Numbers and percentages may not add up due to rounding. For the same reason, percentage changes may not be consistent with the absolute numbers they relate to.
